- React skills: **Axios, Zustand, React Router, Rest API**
- Backend skills: **PHP, CI4**
- DevOps skills: **Git, Python, Linux command**
- Design Software: **Adobe Photoshop, XD, Canva, Figma** (Wireframe, Mockup, Prototype)
- IDE: **Visual Studio Code, PyCharm, GitHub**
- Architectural tools**: MS Word, Excel, PowerPoint**
- Excellent Hardware troubleshooting, repair and maintenance

PERSONAL SKILLS

- Strong problem-solving, oral and written communications skills
- Proven analytical abilities
- Highly organized and efficient
- Ability to work independently and as a part of a team with hands-on approach
- Proven leadership skills and ability to motivate
- Excellent teamwork and adaptability in a fast-paced environment.
- Good project management skills

EDUCATION

Cavite State University | Bachelor of Science in Information and Technology   Aug 2018 – January 2024
- Dean's List Academic Achievement Award   Cavite
- Capstone Project: Online Ordering Website with Reservation

EXPERIENCE

Freelance Frontend developer   July 2023 - Present
H&H   Cavite

- Created a dynamic and modern **SPA** e-commerce website for a clothing brand using React, Bootstrap, AOS and React libraries.
- Translated my UI/UX design wireframes into reusable, production-ready code.
- Improved website performance by optimizing speed, scalability, and page load time, resulting in a performance score increase of nearly **29%.**
- Integrated state management to handle complex shopping cart.
- Ensured responsive design for optimal user experience across various devices.

Data Analyst | (Internship wfh setup)   March 2022 – Aug 2022
NeoDocto Inc.   Singapore

- Led and managed a team of **4** data analyst, by setting clear goals, delegating tasks, and providing guidance.
- Collected and analyzed data from educational institutions and businesses, achieving a **95.5%** social media engagement rate.
- Collaborated closely with team members and engaged in discussions with senior leadership regarding the project's status, seeking their opinions and advice.
- Excelled at utilizing Excel, Google Sheets, MeisterTask, and Web Scraping tools (DataScrapper) for organizing and presenting data.

Restaurant Staff   November 2018 – March 2022

- Balanced multiple tasks, exhibited flexibility in handling unexpected situations, and demonstrated the ability to work efficiently during busy periods.
- Patience and the ability to handle irate customers and client gracefully.
- Active listening skills to understand customer, client's needs and preferences.

PROJECTS – View all of my project on GitHub or here: Portfolio

Online Ordering Website with Reservation | https://github.com/

- Developed an online ordering platform featuring real-time reservation capabilities using HTML, CSS, JavaScript, SASS, PHP, and SQL.
- Implemented a responsive and user-friendly front-end interface to enhance the customer experience.
- Collaborated with clients and two team members to achieve project goals and meet requirements using the agile methodology and SDLC approach.
- Conducted user testing, resulting in an overall grand mean of **4.50**, and effectively resolved usability issues, ensuring a seamless user journey.

Clone Website (Disney Philippines) | https://github.io/

- Accomplished the replication of the Disney Philippines website layout using React, Axios, and Tailwind CSS.
- Leveraged REST API with Axios for seamless integration of dynamic content and data retrieval.
- Applied responsive design principles and optimized user interface for an authentic user experience.
- Integrated AI-boosted Static Code Analysis with AI tools to promptly detect and address performance issues, enhancing development issue resolution.
